

Subject: Strategic Healthcare Collaboration for Sukari Gold Mine

Dear Ms. Mansour,

Warm greetings from Healthcare International Group.

Sukari is Egypt's first modern gold mine and a true national success.

I am writing to propose a strategic healthcare collaboration between Healthcare International Group (HCIG) and Sukari Gold Mine.

Our aim is simple: trusted medical care for your people, close to where they work.

About Our Group

- Official Partner of Global Healthcare Accreditation™ (GHA) and the German Medical Wellness Association (DMWV) in Egypt
- 40+ years delivering healthcare in Egypt and MENA
- 600,000+ patients served
- 350+ medical professionals and 135+ on-site clinics
- Our group companies:
 - **MedPark Hospitals:** hospital, emergency and specialty care in Hurghada and El Quseir
 - **24/7 Clinic:** on-site urgent care inside hotels and resorts
 - **TMASI Global:** international medical assistance and case coordination
 - **MedOne Group:** travel medical services and care coordination
 - **Shakankiry Clinics Medical Group (SCMG):** travel medical services
 - **UCA MENA:** Urgent Care Association, Egypt and MENA
 - **One Medical Center and One Medical Spa:** Clearwater, Florida, USA

What we offer Sukari

- A referral network of hospitals and specialised medical centres
- Priority admission for emergency and critical cases
- Dedicated case management for every patient, from first call to discharge
- Healthcare for employees, contractors and their families
- On-site clinics and medical services for accommodation and camps

Why this matters for Sukari

- **No cost to Sukari.** Treatment is billed directly to each patient's insurance provider.
- **Care close to your site.** MedPark Hospital in El Quseir serves the Red Sea region around Sukari. It has a 24/7 emergency room, ICU, operating theatres and CT.
- **A simple referral.** Your medical team refers the patient. We manage everything from admission to discharge.

Our company profile is attached.

Should your schedule allow, I would be glad to arrange a meeting at your convenience.

Kind regards,

Dr. Amr Abbas
