

HEALTH CARE INTERNATIONAL GROUP

Company Profile

About Healthcare International Group

Healthcare International Group (HCI Group) is an American managerial company specialized in managerial and operational solutions for various healthcare facilities settings. HCI Group services include providing facilities with the latest policies and procedures followed in accordance with the international standards, apply the latest operating systems and medical management in accordance with the international standards, and finally, provide advanced and modern performance management and training solutions.

Group Chairman Message

“ It is not just about the cure. It is not only about the equipment. It is not merely about the facilities. At Healthcare International Group, we are of the firm belief that the process of healing is much more than curing a medical condition in a clinical environment. Amidst all the medical advancements of the modern world, it is easy to forget that those who are not of sound health sometimes need something more than a sophisticated medical environment at their disposal. A warm smile, a reassuring touch or a few words of comfort can instill hope and confidence in patients and help them on the road to recovery. Which is why along with world-class medical professionals, sophisticated diagnostic equipment and superior healthcare services, we also provide an extremely comforting ambience, full of warmth and personalized attention. We call this process the 'art of healing ’”

Dr. Mustafa ElShakankery
Group Chairman

Group CEO Message

“ With the trust of our customers, we have been able to establish ourselves as the most reputed private healthcare services group in the region within a short period of time. Our strategy was to focus on sub-specialties. Our vision and activities go beyond providing reliable quality medical care to patients who come to us. As corporate citizens, we believe that we have social responsibility towards the community welfare programs. In HCIG, we believe that continuous education is everybody's responsibility. We are continuously improving our services to exceed the needs and expectations of our patients. We will be keen always to apply our American medical standards and protocols to all of our clinics and hospitals in Egypt ”

Dr. Amr Abbass
Group CEO

Reshaping Health Tourism

Healthcare International Group has more than 20 years of operations and experience in medical tourism, HCI Group is considered as one of the most reputable healthcare service providers and medical tourism specialists for accessing safe, affordable and high-quality healthcare at drastically reduced prices. HCI Group was established and launched its healthcare services to thousands of tourists who come to Red Sea Area since 2001 . HCI Group services cover Hurghada , Marsa Alam and Sharm El-Shiekh. Medical care provided by HCI Group hospitals, medical centers and satellite clinics are at the forefront for state of the art medical technology, experienced professional staff as well as the most modern facilities.

Reshaping Medicine

Urgent

Care

Healthcare International Group designed its Urgent Care Clinics to provide medical care for illnesses or injuries that require attention but are not life threatening. This delivery model is structured to get the patient in the door, seeing a medical professional, and back on the road to recovery in as little time as possible. Urgent Care Clinics tend to maintain later, longer regular business hours, making them a convenient alternative to a mid-week appointment with a primary care physician. Plus, since appointments don't need to be made several days in advance, patients are able to get the treatment they need, when they need it.

Why HCI Group?

We Follow Core Values

HCI Group core values are the following:

- Patient Delighting and Hospitality.
- Patient Safety.
- Respect of All Beliefs.
- Commitment to Our Community.
- Professionalism.
- Striving for Continuous Improvement.
- Team Work.
- Open Communication.
- Motivation.
- Equal Opportunities.

We Apply American Standards

HCI Group follows the American guidelines and standards in medical practice and quality. We applied all of these standards across all of our medical centers with high efficiency in localizing these standards in our medical operations. The development and availability of standards for patient safety can serve several purposes. They can either establish minimum levels of performance or can establish consistency or uniformity across multiple individuals and organizations. Another purpose for standards is that they set expectations. The process of developing standards can set expectations for the organizations and health professionals affected by the standards.

We Structure Ergonomic Health

HCI Groups offer high class medical furniture from the top suppliers as medical furniture along with modern medical equipments have important role to play in health care. They do not only help medical team to perform the medical practice properly with utmost safety of patient, but also make patients feel comfortable during their stay in the medical center or the surgery/post surgery as well. We are keen to have the best medical furniture that are designed and produced keeping safety, multitude of applications and functions in mind. Elegant looks, innovative designs and utility are highlights of our healthcare furniture.

We Teach Our Team Hospitality

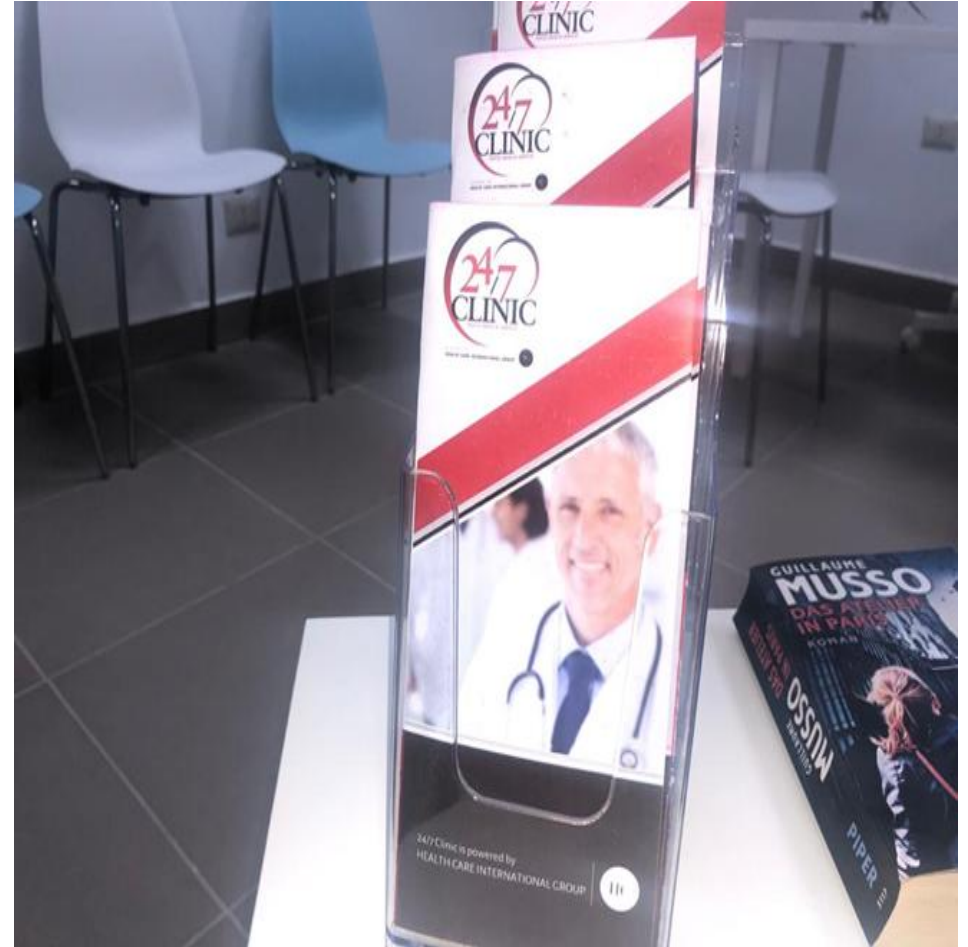

HCI Group keeps teaching the medical team how to practice innovative leadership to organizational systems using modern data analysis techniques, emerging tools, and creativity & critical thinking skills to excel in local and regional organizations.

Also how to commit to life-long service to the tourism & hospitality profession guided.

We Respect Quality

HCI Group believes that quality healthcare is more than just a popular phrase. As the transition to value-based care moves forward, the focus in patient care is shifting to quality and away from quantity. Healthcare outcomes for the patient are more important for the independent physician than the number of patients seen during the day.

We Equip Properly

HCI Group have invested heavily in developing regions' most competent critical care areas. Our intensivist lead Intermediate Care Units are highly motivated and skilled people. The intermediate care unit offers the best and most innovative critical care, managing all medical, cardiac, surgical and stroke cases.

The design of HCI Group ICU allows maximum visibility of patient care areas and workspaces for constant and easy monitoring of patients. This ensures that the most comprehensive and timely care is delivered to each and every patient. HCI Group has technologically advanced units, equipped to deal with any life-threatening complications and conditions.

Premium Radiology

HCI Group medical centers are always equipped with diagnostic ultrasound machines that cover the following clinical applications:

- 1- General Imaging.
- 2- Urology.
- 3- Abdominal.
- 4- Gynecology.
- 5- Obstetrics.
- 6- Vascular.
- 7- Musculoskeletal.
- 8- FAST exam.

Also portable X-Ray machines are essential for our daily medical practice to increase our point of care services.

We Have Lab Networks Everywhere

The mission of the laboratory department of HCI Groups is to provide the highest quality laboratory services to the patients, physicians, and the public at large.

HCI Groups laboratory is staffed by a highly multidisciplinary team of medical professionals, including histopathologists, microbiologists, hamatopathologists, geneticists and medical technologists and is equipped by state-of-the-art medical equipment.

HCI Groups laboratory provides clinical and pathology services 24 hours a day, seven days a week. The laboratory receives patient specimens from other clinics and hospitals.

We Save Lives

HCI Group centers are equipped with Professional defibrillators for emergency medicine. Being a portable unit, we can save patient's life easily with our defibrillators.

When every minute counts, HCI Group centers defibrillator can help hearts stop missing another beat. Everywhere. What matters is that they can be used quickly.

The person affected has only a few precious minutes left for a chance of survival. HCI Group centers only delivers an electric shock if life-threatening fibrillation is actually detected. HCI Group centers has invested in its defibrillators by adding the voice prompts that guide our doctors through the rescue sequence, thus eliminating the possibility of the device being operated incorrectly.

We Protect Beach Guests

HCI Group medical team is trained how to deal with beach medical critical cases. We know how to manage the main common beach injuries. With some simple preparation, you can be ready for almost anything. Our team is always ready to manage the following cases:

- Sun Burns.
- Skin Cuts.
- Jellyfish.
- Sand Flea Bites.
- Alcohol poisoning.
- Injuries from running in sand.

We Provide The Fastest Emergency

HCI Group is not just building clinics based inside hotels, HCI Group provide mobile point of care services.

We provide our clinics with medical golf cars that help a lot in patient emergency transportation wherever that patient is. Our medical golf cars are always ready to arrive to the location's of the patient specially difficult locations such as the beach.

HCI Group medical golf cars are equipped with all remote health monitoring devices that keep the patient safe till the clinic's arrival.

We Innovate Sea Ambulances

HCI Group is the only provider that has sea ambulance because it is the answer and the fast way to deliver and to transport patients from the sea to the nearest medical spot. It can also provide an effective rescue vessel and can act as a temporary sea clinic that can provide immediate medical care to victims in need of emergency care.
